

Center Distance Designer Program

- Allows the design of a pulley drive system using our belt and pulley database.
- Allows locating catalog pages featuring the belts and pulleys used.
- Calculates minimum and actual center distances, speed ratios and teeth in mesh (T.I.M.) for both pulleys.
- Compiles two convenient tables:
 - a) A table of center distances vs. number of belt teeth. It displays five sizes larger and five sizes smaller stock belts than the actual belt length.
 - b) A table of all pulley pairs within specified speed ratio range.
- Exportable .DXF and .DWG drawings.

Available at:
www.sdp-si.com

Need to design a Pulley drive System?

We've made it easy!

Domestic Sales Conditions

Ordering by phone: Telephone: 516-328-3300

We can give you price and stock status on every catalog item over the phone. For larger production quantities, we can fax you a written quote of price and delivery. Please call us between 9AM and 5PM New York time or fax us anytime. If you prefer, you can contact one of our sales representatives listed on the following pages.

Ordering by fax: Toll Free Fax: 1-800-345-1144 (for orders, only)

Please use our toll free fax number to order.
Specify part numbers, quantities, delivery dates needed and method of shipment.

Ordering by Mail:

Mail is sorted, and orders are promptly processed by our Sales Department.

METHODS OF PAYMENT

Open Account Orders:

A minimum order is \$50 plus shipping charges. Orders requiring any type of special handling or certification are subject to additional charge.
Terms: Net 30 days, F.O.B. New Hyde Park, NY.

Credit Card Orders:

For your convenience, we accept VISA®, MasterCard®, American Express® and Optima®. You will be billed for merchandise and freight when parts are shipped, subject to credit card approval. A minimum order is \$50 plus shipping charges.

Credit:

New accounts having a satisfactory rating will receive open credit terms; otherwise, initial order may be on a C.O.D. basis pending credit approval. C.O.D. orders are subject to an additional handling charge.

Method of Shipment:

U.P.S., FedEx or as specified by customer.

Returns and Exchanges:

All returns and exchanges must have prior written approval. Returns must be made within 15 days after receipt of material. Returned merchandise will be inspected and a charge made for restocking. No credit will be allowed on used or modified parts, or catalog parts purchased on a quantity basis. Notification of any shortages must be reported within 10 days after receipt of goods.

Note:

Price and specifications are subject to change without notice.
Every effort has been made to provide accurate technical and product information. The company disclaims responsibility for any error or omission in the accuracy of the technical and product information published.

International Sales Conditions

All international purchase orders for products should be directed to your nearest international distributor shown on the next page or:

DESIGNATRONICS INC.
2101 Jericho Turnpike, Box 5416,
New Hyde Park, New York 11042-5416
TEL: 516-328-3300 FAX: 516-326-8827

Minimum order:

\$75 with a \$10 charge for our standard export handling; i.e., \$85 minimum billing.
If the order exceeds \$100, there is no export handling charge made.

Large quantity order:

Considerable discounts are made available for large quantity orders.
Please request a quote for price and delivery.

METHODS OF PAYMENT

Open Account Orders:

If you have an open account, we will ship and bill you, net 30 days,
F.O.B. New Hyde Park, NY.

Credit Card Orders:

For your convenience, we accept VISA®, MasterCard®, American Express®
and Optima®. You will be billed for merchandise and freight when parts are shipped,
subject to credit card approval. A minimum order is \$85 plus shipping charges.

Credit:

Purchase orders accompanied by Bank References will be shipped on open credit
terms. Otherwise, an irrevocable letter of credit or prepayment is requested.

Method of Shipment:

U.P.S., FedEx, Air Parcel Post, or as specified by customer.

Returns and Exchanges:

All returns and exchanges must have prior written approval. Returns must be made
within 15 days after receipt of material. Returned merchandise will be inspected and
a charge made for restocking. No credit will be allowed on used or modified parts, or
catalog parts purchased on a quantity basis. Notification of any shortages must be
reported within 10 days after receipt of goods.

Note:

Price and specifications are subject to change without notice. Every effort has been
made to provide accurate technical and product information. The company disclaims
responsibility for any error or omission in the accuracy of the technical and product
information published.

How to use the Index

There are two ways to access the information on parts you are looking for, as shown below:

METHOD 1: IF YOU KNOW THE PART NUMBER

The **Part Number Index**, starting at page x, will direct you to the appropriate catalog page. Match the part number as closely as possible to one of the entries in the **Part Number Index**. The dots denote variable characters on the page. Then, go to the page number indicated. Often, the series will continue on to the facing page.

Example:

Part
Number
Series

Code	Page	Code	Page	Code	Page
A 6A 2- FA	4-11	A 6A23- DF09	2-68	A 6A51M- DF03	3-71
A 6A 2- XL	4-8	A 6A23- NF06	2-67	A 6A51M- DF06	3-73
A 6A 3- DF025	2-26	A 6A23- NF09	2-69	A 6A51M- DF09	3-74
A 6A 3- DF037	2-27	A 6A23M- DF06	3-43	A 6A51M- NF06	3-73
A 6A 3- DF037	2-32	A 6A23M- DF09	3-45	A 6A51M- NF09	3-74
A 6A 3- H37	2-29	A 6A23M- NF06	3-44	A 6A52M- FA	4-36
A 6A 3- NF037	2-30	A 6A23M- NF09	3-46	A 6A52M- DT	4-33
A 6A 3- NFB37	2-32	A 6A24M- FA	4-23	A 6A53- DF06	2-100
A 6A 3M- DF06	3-20	A 6A24M- TM	4-19	A 6A53- DF09	2-102
A 6A 3M- DF06	3-21	A 6A25- DF09	2-77	A 6A53- NF06	2-100
A 6A 3M- DF09	3-22	A 6A25- DF14	2-77	A 6A53- NF09	2-102

Section – Page Number

METHOD 2: IF YOU KNOW THE NAME OF THE ITEM

The Alphabetical Index is at the end of this catalog. We have tried to make as many entries as possible to make it easier for you to find the products you are looking for. Consequently, the same page may be referenced under several headings.

Example:

Product
Name

Catalog Item	Page	Catalog Item	Page
A			
ACCESSORIES		HTD, Neoprene, Fiberglass Reinforced	
Sonic Tension Testers	1-42	3 mm Pitch	1-23
		5 mm Pitch	1-27
ALUMINUM TIMING BELT PULLEYS		Double-Sided	
See Metal Timing Belt Pulleys		3 mm Pitch	1-25
		5 mm Pitch	1-29
B		T2.5, 2.5 mm Pitch	
BELT STOCK, TIMING		Polyurethane, Steel Cord	1-31
MXL, .087" & 2.03 mm Pitch		T5, Polyurethane, Steel Cord	
Neoprene, Fiberglass Reinforced	1-39	5 mm Pitch	1-32
XL, .157" & 3.98 mm Pitch		Double-Sided	
Neoprene, Fiberglass Reinforced	1-39	5 mm Pitch	1-33
Polyurethane, Steel Cord	1-39	T10, Polyurethane, Steel Cord	
L, .315" & 8.025 mm Pitch		10 mm Pitch	1-34
Neoprene, Fiberglass Reinforced	1-39	Double-Sided	
Polyurethane, Steel Cord	1-39	10 mm Pitch	1-35

Section – Page Number

The Better Way to Fasten Rotating Components. Solves...Phasing, Timing, Positioning and Frequent Removal Problems

Here's How It Works!

Two slots are machined into the hub, one oriented radially, the other angularly, to create a transverse wedge which remains attached to the solid portion of the hub on one side. The resultant cantilevered clamping section has a tapped hole to accept a cap screw which passes through a clearance hole in the solid portion of the hub, and into a threaded hole in the transverse wedge section. As the screw is tightened, the cantilevered section clamps the shaft securely. The screw can be tightened and released repeatedly without marring the shaft or affecting its torque transmitting abilities.

Proved Most Effective

For precision application – Lab tests proved Fairloc® to be superior to all other comparable fasteners. For high torque application – Torques up to 400 in. lbs. are obtained with a 5/8" bore Fairloc® hub.

- **Full Use Of The Bore**
Gives maximum support to the component, reduces wobble or misalignment.
- **Easy Adjustment**
Fairloc® replaces set screws and clamps, eliminates marred shafts; components can be repositioned with a single hex key adjustment.
- **Compact, Self-Contained Design**
When available space or access is limited Fairloc's® small hub envelope is a distinct advantage.
- **Very High Reliability**

Fairloc® Hub Pulleys

Pitch	Page #
.080	2-3
1/5	2-36
5.08 mm	3-24
3 mm HTD	2-65, 3-42
5 mm HTD	2-51, 3-57
2 mm GT2	2-95, 3-72
3 mm GT2	2-101, 3-78

Typical Application Areas For Fairloc® Include:

Computer Tape Drives, Aerospace Components, Aircraft Instrumentation, Aircraft Fuel Control Systems, Machine Tools, N/C Machines, Computer Input / Output Systems, Military Fire Control Systems, Medical Equipment, Business Machines, Optical Equipment, Power Drives.

FASTENER SELECTOR GUIDE						Legend
Fastening Method	A	B	C	D	E	
Clamps	Yes	No	No	Yes	No	A – Shaft remains smooth B – Self-contained (no additional inventory) C – Component is fully supported D – Easy adjustment E – Can be pinned if desired
